25mm

The diagram shows a square sticker template with several concentric boundaries. A red line marks the outer edge of the sticker. Inside it is a blue line, followed by an orange dashed line, and finally a black dashed line at the center. A dimension line at the top indicates the 25mm width from the red line to the center. A dimension line on the right indicates the 25mm height from the red line to the center. The text '25mm Square' is centered within the orange dashed line. Below this, instructions are provided for printing to the sticker edge, including a reminder to extend background images beyond the blue line. A legend at the bottom defines the lines: Red for the max printable area (27mm square), Orange for the suggested safe area, and Blue for the sticker edge.

25<sup>Square</sup>mm

**Want to print to sticker edge?**

Remember to extend background  
images, designs or colours  
beyond the blue line.

**Red** - Max printable area is 27mm Square.

**Orange** - Suggested safe area -  
Keep important design elements away from the sticker edge.

**Blue** - Sticker edge
