alocalprinter 

Product Summary

- Our standard calendar template customised with up to 16 of your own images.
- Finished as a booklet with 4mm hanging hole.

1. Choose a size

A4 Landscape

A5 Landscape

Large Square

Small Square

Our handy size guide is on the next page

2. Supply your images or photos

Supply 12 images/photos (one for each month) and two for the covers

3. Make use of two additional pages

The additional pages are an opportunity to place any extra images or text in your calendar, such as information about the images, you or your business. These pages can appear at the start of the calendar (pages 2 and 3 or at the end (pages 26 and 27).

4. Follow our how to supply artwork guide

The next page explains all you need to know about supplying your files to us for perfect calendar printing

Need Personalisation?

We can add logos,
image titles as well
as key dates.

**Please select the
Tidy My Design
option at checkout**

Artwork Setup Top Tips

- Supply images/pages according to sizes listed in the table below
- Supply your artwork as either one print-ready PDF with all pages in order or as separate files. If you upload or supply individual images please specify in the filename which page this is for, i.e. “Front Cover” or “January”

Artwork Setup

Size	Finished Size	Bleed Size
A4	297mm x 210mm	303mm x 216mm
A5	210mm x 148mm	216mm x 154mm
Small Square	155mm x 155mm	161mm x 161mm
Large Square	210mm x 210mm	216mm x 216mm

- Visit our templates page on the website if you are unsure of the term “bleed”. Bleed is a small amount of image that is trimmed away during finishing – it is important to consider this when creating your artwork.
- All artwork should be supplied at the bleed size.
